

Haley's wish to go to Sea Mist Resort

9 year-old Haley is battling with the everyday hardships of Chrohns' Disease, a Gastro-intestinal illness. When volunteers met with Haley to determine her wish, there were a few stipulations she had– 1. she wanted to get a tan, 2. she wanted to meet people and 3. she wanted to have a good time with her family. Sometimes our children know what they want from the minute we walk in the door and others, like Haley, needed a little more time to find that special wish experience. After some research, the decision was made to pack up the family and head to Sea Mist Water Park Resort in Myrtle Beach, South Carolina. On July 26, Haley will be in what she considers paradise, soaking up the sun poolside and enjoying the amenities of this fabulous water park and resort. She is looking forward to hitting the slides (did we mention they have a 3-story tubular speed slide) and relaxing in the lazy river. Hayley is super excited and counting down the days to her water park adventure. We look forward to sharing pictures with you soon! Thank you for helping make Haley's wish come true!
