

Hope's Dream Come True

Hope is a personable and joyful 16-year-old who suffers from cerebral palsy. Her medical condition doesn't stop her from doing the things that she loves most like shopping, singing and hanging out with friends. Her wish was to meet Aly & AJ, the Disney pop-rock sister band. Hope wanted to meet Aly & AJ because she "likes their music and thinks they are great role

models for teenagers." Hope's wish was fantastic! Aly & AJ were awesome and even remembered Hope from a meet and greet 2 years earlier. They gave her lots of gifts, including a bracelet right off Aly's wrist. Hope rode her wheelchair on the red carpet and was the center of attention as the paparazzi snapped away. Her favorite part of the wish was having lunch with the girls. She was able to spend one on one time with them; hanging out like girlfriends

chatting about fashion, boys, friends and family. Other highlights of Hope's trip included a visit to Grauman's Theater, the Santa Monica Pier, Rodeo Drive and Beverly Hills. Every moment of her trip was special. Thank you for making Hope's wish a reality!
